**POLARITY CHECKER  
MODEL PC-1C II**

182(W) × 102(H) × 160(D) mm    2.2kg

Such kinds of power relays as directional relays and distance relays have to have correct connection in polarity of wiring. When new relaying system is established or relaying system is modified, it is inevitable to check the polarity of connection.

Model PC-1C II which is of electronics type consists of Oscillator and Detector, and the polarity of the wiring is indicated by green (subtractive polarity) or red (additive polarity) LED.

Oscillator and Detector are operated by batteries (4 DCS. of UM-1) and the necessary lead wires are supplied with PC-1C II.
