

D-TEC BRAND TRANSFORMERS AND TEST EQUIPMENTS

100kV/20kVA Transformer for high voltage test

400Hz Inductive withstand voltage test set

Transformer Turn ratio test set

Automatic instrument transformer test set

400Hz Withstand voltage test set between winding wire Terminals

Polarity Checker

Automatic residual charge releaser for high voltage

High Voltage Switch Unit for double Circuit

Multi meter with zero burden

Automatic test set for transformer error

Auxiliary current transformer

Auxiliary voltage transformer

Standard instrument transformer

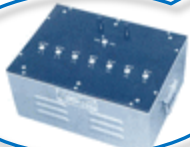

Standard CT

High voltage standard CT

Burden box for VT

Burden box for CT

2kA/5kVA Transformer for heavy current test

20kA/200kVA Transformer for heavy current test

Target
